ELIE NGAMBWA MULAMBA

Strategic Analysis | Machine Learning Engineer | Geomarketing

elie.mulamba@gmail.com +243-853001555 Kinshasa, DR Congo

EXPERIENCE

Strategic Analysis Manager

Orange DRC

August 2025 – Present Kinshasa, DRC

- Conduct geospatial, demographic and socioeconomic analyses to identify high-potential investment areas for Mobile, FTTx and Orange Money rollouts.
- Develop a machine learning predictive model to forecast stock-outs, improving operational efficiency.
- Design a multiclass classification model that identifies the main driver of site underperformance (Network, Distribution, Marketing or Orange Money), supporting root-cause analysis and data-driven decision-making.
- Track and analyze business and operational key performance indicators (KPIs) to assess site performance, profitability and investment efficiency.
- Build data-driven business cases and profitability analyses to support strategic deployment and expansion decisions.
- Evaluate rollout opportunities by integrating market potential, customer demand, competitive intelligence and network coverage analyses.
- Collaborate with cross-functional teams (Marketing, Network, Sales and Finance) to turn data analyses into strategic decisions and maximize return on investment (ROI).

CBM Coordinator | Data Analyst

Orange DRC

April 2024 – August 2025 Kinshasa, DRC

- Data analysis & predictive modeling: Analyze customer data, develop predictive models and produce analyses to guide marketing strategies.
- Machine learning solutions: Develop machine learning models to predict churn, identify at-risk young customers and support proactive retention initiatives.
- Customer segmentation & campaign evaluation: Segment customers to personalize marketing actions and evaluate campaign performance using key indicators such as return on investment (ROI) and conversion rate.
- Reporting & cross-functional collaboration: Design dashboards and decision-support reports, working with various stakeholders to align data analyses with the company's strategic objectives.

Lecturer

University of Mbujimayi

September 2022 – Present Mbujimayi, DRC

SKILLS

- **Python & R**
- **Big Data**
- **SQL**
- **GIS**
- **Data Visualization**
- **Machine Learning**

LANGUAGES

- **French**
- **English**

EDUCATION

Master's in Machine Intelligence

African Institute for Mathematical Sciences

January 2023 – April 2024

Master's in Mathematical Sciences

African Institute for Mathematical Sciences

October 2021 – July 2022

Bachelor's in Computer Engineering

University of Mbujimayi

October 2014 – July 2019
